## PROFESSIONAL SUMMARY

Final-year B.Tech IT student and Flutter Developer with professional internship experience at RainStream Technologies and Infolabz IT Services. Experienced in building production-ready mobile applications using Flutter, Firebase, REST APIs, and custom cookie-based authentication. Strong understanding of UI/UX implementation from Figma designs and real-world API integration challenges.

## TECHNICAL SKILLS

Languages: Dart, Java, C, C++, JavaScript

Frameworks: Flutter, Angular (Basics)

Backend & APIs: Firebase, REST APIs, Node.js (Basic)

Databases: Firestore, MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Figma

## EDUCATION

### Bachelor of Engineering (B.E.) – Information Technology (Pursuing)

Government Engineering College, Modasa | CGPA: 7.78

### Diploma – Information Technology

R.C. Technical Institute, Ahmedabad (2023) | CGPA: 9.49

## INTERNSHIP EXPERIENCE

### Flutter Developer Intern – RainStream Technologies 01 Sept – 15 Dec (3.5 Months)

- Developed a secure internal company portal mobile app using Flutter.
- Collaborated with the UI/UX team to build responsive and user-friendly screens.
- Integrated legacy backend APIs not originally designed for mobile use.
- Implemented cookie-based authentication, session management, and secure headers.
- Worked with backend developers to debug APIs, test endpoints via Postman, and ensure reliable data handling.

### Flutter Intern – Infolabz IT Services Pvt. Ltd. 02 Jul – 16 Jul (2 Weeks)

- Worked on Flutter fundamentals and UI component development.
- Integrated REST APIs and learned mobile app development best practices.
- Gained exposure to industry workflow.

## MAJOR PROJECTS

### Company Portal App (Internship Project) Flutter, Custom REST APIs, Cookie-based Authentication

- Built a production-grade internal mobile application for company employees.
- Managed authentication manually using cookies and headers in Flutter HTTP requests.
- Implemented role-based access and session handling across multiple modules.

### Dream Canvas – AI Image Generator App Flutter, Stability AI API, Firebase, Provider

- Developed an AI-powered mobile application for image generation using text prompts.
- Integrated Stability AI API and handled asynchronous image generation workflows.
- Implemented Firebase Authentication and Firestore to store user image history.

### Real Estate Booking & Rental App Flutter, Firebase, Figma

- Developed a user-side application for property booking and rental management.
- Converted Figma designs into pixel-perfect Flutter UI components.
- Integrated Firebase for property listings, bookings, and user data management.

## ADDITIONAL PROJECTS

Group Chat App (Flutter + Firebase) | Weather App (Flutter + OpenWeather API + Geolocation) | Notes App (Flutter + Provider) | Face Recognition Attendance System (Python, OpenCV, MySQL)
